8. Latest lab equipment's.
9. Excellent audiovisual systems
10. Fully equipped computer work station.
11. Collaboration with other educational institutes for research purposes.

Services Offered

1. Removable appliances
2. Growth modulation
3. Fixed functional appliances
4. Intra oral molar distalization
5. Expansion appliances
6. Begg & PEA fixed appliances
7. Invisalign therapy

8. Lingual orthodontic appliance
9. Temporary anchorage devices

Compassion & Care

We not only charge regular patients nominally, **but we bring out our experience and show our care by treating cleft patients and syndrome cases free of cost.**

Multidisciplinary Patient Care: We believe in holistic approach towards patient care and do not limit our thinking only towards orthodontic treatment. Necessary referrals are made to concerned departments and to medical hospital. Special referrals are also made to ENT, Pediatric and Skin departments.
